Objective
Work in a challenging and boundless environment with steadfast progress in learning in Cyber Security domain.

Skills
`Java` `C/C++` `Python3` `Metasploit` `AccessData FTK Imager` `Kali Linux` `NMap` `DVWA` `Wifi Hacking`
`Docker` `SQL Injection` `MobilEdit Forensics Express` `OWASP 2017` `Burpsuite` `CEH v10` `Jenkins`

Work Experience

- **Data and Application Security Analyst**
  IBM India Pvt. Ltd. | January 2020 – cURRENT
  Performed penetration testing of web applications for company's skills. Also explored the arena of exploit writing.

- **Technical Content Writer**
  Czar Securities Pvt. Ltd. | April 2019 – September 2019
  Authored content on different security vulnerabilities present in different CMS platforms for company's blog.

- **Digital Evidence Examiner Trainee**
  SysTools Pvt. Ltd. | June 2019 – Aug 2019
  Worked with Income Tax department to help acquire digital evidence using different software utilities from raid sites and analyze them. Assisted my team in completing documentations on Digital Forensics for NCRB officials.

- **Software Engineering Intern**
  National Informatics Centre | Aug. 2018 – Nov. 2018
  Understood the various concepts related to wireless network standards which helped me enhance my network security concepts.

- **Computer Science Subject Matter Expert**
  Chegg Inc. | March 2018 – June 2018
  Authored various textbook answers to questions related to Computer Science and Information Security which expanded my knowledge in the subject.

- **Graphic Designing Intern**
  PeerXP Technologies Pvt. Ltd. | Sep. 2017 – Nov. 2017
  Learned how to make eye-catching posters which enhanced my knowledge about how people are attracted to click-baits or phishing tools available online.

- **Content Writing Intern**
  Shamoor World | June 2017 – July 2017
  Authored content material to connect to the minds of netizens and understand how influencing content is created in social engineering attacks or hacktivism.
